EASY-FLOW NO DROP AIR CLEANER

AIR CLEANERS

THE UNMATCHED QUALITY OF AN EASY-FLOW & ONE LESS DROP

Easy Flow No Drop

- All stainless steel construction
- Easy-to-access debris collection cage
- Telescopic adjustable height legs
- Adjustable infeed height independent from main frame & exit end

Produce is fed onto the inclined conveyor either directly or into the optional metering hopper. Product is conveyed through the air stream all on one stainless steel wire belt conveyor to ensure fewer drop points and gentle handling through the debris removal process. Small and lighter berries, leaves, and debris follow the air stream into the overhead cage where it is conveyed out to one side via two 'trash' conveyors. The first conveyor carries out berries while the second conveyor carries out lighter sticks and leaves.
